### TEXT K ÚKOLŮM 2 a 3 (nejdříve si pozorně přečti text, pak vypracuj úkoly dole pod textem):

#### ZERO G

Have you ever wondered what it is like in a spaceship? Early astronauts had very little room in their spaceships. Modern astronauts have much more room. There is no gravity in <sup>1</sup>..... This is called zero G. Living in zero G can be difficult. Eating can be a problem. You <sup>2</sup>..... put the food on a plate and cut it with a knife and fork. When you try to cut the food, it flies away. You <sup>3</sup>..... eat your food from a bag. (1)

Going to the toilet and <sup>4</sup>..... a shower are usually easy on Earth, but not in space. Water doesn't <sup>5</sup>..... in space. It floats, because there is no up and no down. The astronauts need a special shower and toilet. (2)

Some things <sup>6</sup>..... easier in zero G. You don't need a bed. You can sleep anywhere. You just fix your sleeping bag to a wall or to the ceiling and go to sleep. You can sleep upside down, if you want to. You don't need strong muscles in zero G, because <sup>7</sup>..... moves easily. Keeping fit is very important. If the astronauts didn't do a lot of <sup>8</sup>....., their muscles would get weaker. Then when they came back to Earth, they wouldn't be able to walk. (3)
